Lab Staff Pan Guide

Use this guide for lab production, dispatch to store, and receiving empty pans.

1. Make New Pans

1. Sign in as **Lab Staff** or **Lab Manager**.
2. Tap **Lab**.
3. In **Add lab production**, choose the flavour.
4. Enter production date.
5. Enter pan count.
6. Enter the weight for each pan in kg.
7. Tap **Save production**.
8. Write the shown **Pan IDs** on the physical pans.

Save production

2. Send Pans To A Store

1. Go to **Move inventory to store**.
2. Choose the destination store.
3. Tick the pan IDs you are sending.
4. Tap **Move selected pans to store**.

DISPATCH NOTES

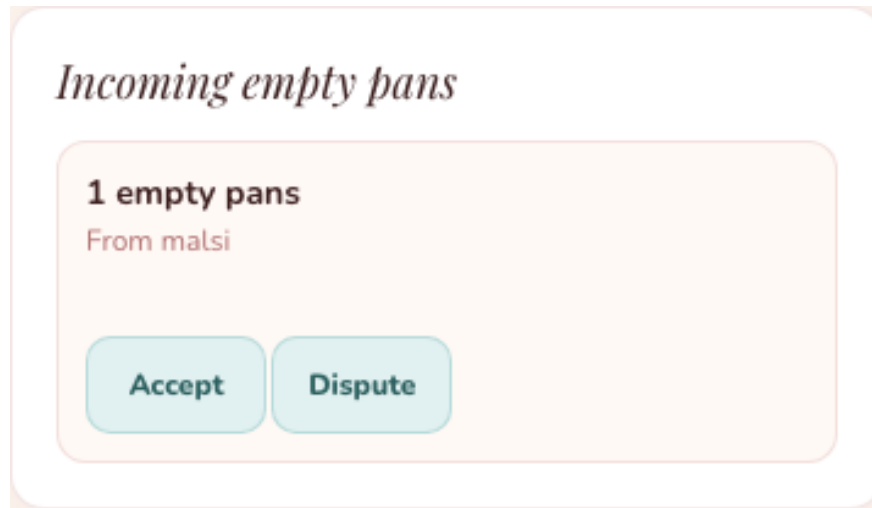

Optional

Move selected pans to store

3. Receive Empty Pans Back

1. Go to **Incoming empty pans**.
2. Check the store name and number of empty pans.
3. Tap **Accept** if the count is correct.
4. Tap **Dispute** if the count is wrong.

Lab incoming empty pans

Remember

- Do not dispatch a pan unless the physical pan is going to that store.
- Each pan can have a different weight.
- Pan IDs must be written clearly on the physical pans.
- If empty pans received from store do not match the app, tap **Dispute**.

Store Staff Pan Guide

Use this guide when working with gelato pans in the store.

1. Check In First

1. Sign in as **Store Staff**.
2. Tap **Attendance**.
3. Choose your store.
4. Upload selfie.
5. Tap **Check in**.

You must be checked in before store pan work.

2. Receive Pans From Lab

1. Tap **Store**.
2. Tap **Incoming pans**.
3. Confirm the store.
4. Check the flavour name.
5. Check the pan IDs listed under that flavour.
6. Tap **Accept** if pans are correct.
7. Tap **Reject** if pans are wrong.

3. Move A Pan To Display

1. Tap **Store**.
2. Tap **Move to display**.
3. Choose the flavour.
4. Check **Recommended FIFO pan**.
5. Tap **Move pan**.

FIFO means use the oldest pan first. The app chooses the pan ID for you.

4. Bring Out A New Pan When Old Pan Is Too Low

1. In **Move to display**, choose the flavour.
2. Check the **Recommended FIFO pan**.
3. Under **Checkout**, choose **Too low, mark empty**.
4. Tap **Swap pan**.

The old pan will count as empty in the app.

5. If Manager Says To Use A Different Pan

1. Tap **Store**.
2. Tap **Move to display**.
3. Choose the flavour.
4. Tap **Override FIFO**.
5. Choose the pan ID the manager told you to use.
6. Read the warning.
7. Tap **Move pan** or **Swap pan**.

Use **Override FIFO** only when Store Manager tells you.

6. Enter EOD Gelato Weight

1. Tap **Store**.

2. Tap **EOD gelato weights**.
3. The app shows every pan that was in display today.
4. Enter the weight for each pan in kg.
5. Tap **Submit weight**.

If the pan is empty, enter **0**.

Do not enter a weight higher than the **Opening** weight shown by the app.

7. Count Physical Empty Pans

Do this at beginning of day or end of day.

1. Tap **Store**.
2. Tap **Empty pan count**.
3. Enter how many empty pans you can see in the store.
4. Tap **Submit count**.

If the number does not match the app, the app will flag it for review.

8. Send Empty Pans Back To Lab

1. Tap **Store**.
2. Tap **Return empties**.
3. Enter the number of empty pans you are sending to lab.
4. Tap **Send to lab**.

Only enter pans that are physically leaving the store.

Remember

- Always choose the recommended FIFO pan unless a manager tells you otherwise.
- If a pan has very little gelato, use **Too low, mark empty**.
- Enter weights in **kg**, not grams.
- At EOD, enter weight for each pan shown by the app.
- If something looks wrong, tell Store Manager.

Store Manager Pan Guide

Store Manager can do store staff work and can correct same-day EOD mistakes.

1. Correct EOD Gelato Weight

Use this if staff entered the wrong EOD gelato weight today.

1. Sign in as **Store Manager**.
2. Check in to the store.
3. Tap **Store**.
4. Tap **EOD gelato weights**.
5. Find the pan row.
6. Change the wrong weight.
7. Tap **Update weight**.

If the pan is empty, enter **0**.

Do not enter a weight higher than the **Opening** weight shown by the app.

Manager EOD correction

The screenshot shows a mobile app interface for 'PAN WORKFLOW GUIDE'. The title is 'Manager EOD correction'. Below the title, it says 'EOD gelato weights'. Underneath, it says 'Today: submitted'. There is a card for a pan named 'PISTACHTO' with ID 'PIS-20260523-01' and an 'Opening 1.2 kg'. To the right of the card is a text input field containing '1.1'. Below the card is a red button labeled 'Update weight'.

2. Check Empty Pan Mismatch

If the app says there is a mismatch:

1. Count physical empty pans in the store.
2. Check if any low pan was marked empty but still has some gelato.
3. Tell Admin what happened.
4. If needed, add notes when submitting the physical count.

NOTES

Optional

Submit count

3. Help Staff With Rejected Dispatch

If staff rejected a dispatch by mistake:

1. Open **Incoming pans**.
2. Find **Rejected pans**.
3. Tap **Accept rejected dispatch**.

Only do this if the physical pans are really in the store.

Remember

- Staff can make mistakes. Correct same-day EOD in the app.
- Check physical pans before resolving a mismatch.

- If the problem is old or unclear, ask Admin.

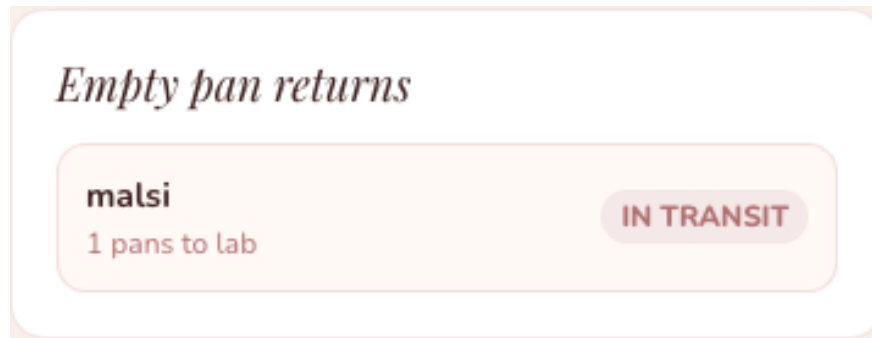

Admin Pan Guide

Admin reviews pan workflow problems. Admin does not normally move physical pans.

1. Review Empty Pan Returns

1. Sign in as **Admin**.
2. Tap **Stores**.
3. Look at **Empty pan returns**.
4. Check store, quantity, and status.

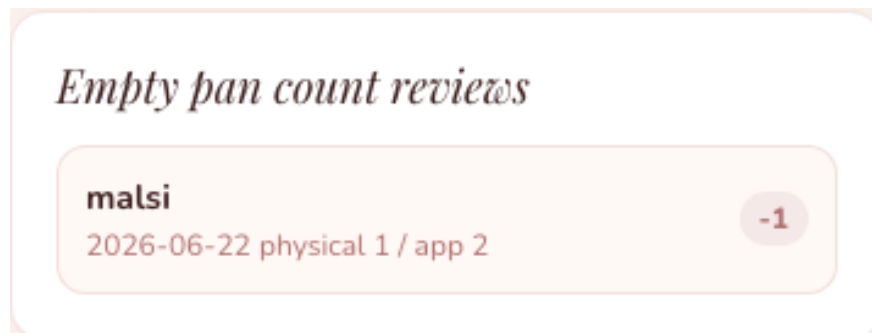

Admin empty pan returns

2. Review Empty Pan Count Problems

1. Tap **Stores**.
2. Look at **Empty pan count reviews**.
3. Check physical count, app count, and variance.
4. Ask Store Manager what happened.

Admin empty pan review

3. What To Ask Store Manager

Ask simple questions:

- How many empty pans are physically in the store?
- Did staff mark a low pan as empty?
- Did any empty pans already leave for lab?
- Did lab accept or dispute the empty pan return?

Remember

- A mismatch is a review flag, not always a mistake.
- A low pan can be treated as empty in the app.
- Use the app report and the physical count together.
