3. What To Ask Store Manager

Ask simple questions:

- How many empty pans are physically in the store?
- Did staff mark a low pan as empty?
- Did any empty pans already leave for lab?
- Did lab accept or dispute the empty pan return?

Remember

- A mismatch is a review flag, not always a mistake.
- A low pan can be treated as empty in the app.
- Use the app report and the physical count together.
