1. Sign in as **Store Manager**.

- Check physical pans before resolving a mismatch.
- Use **Move outside store** only when the pan is actually leaving for event/B2B.
- If the problem is old or unclear, ask Admin.

Admin Pan Guide

Admin reviews pan workflow problems. Admin does not normally move physical pans.

1. Review Empty Pan Returns

1. Sign in as **Admin**.
2. Tap **Stores**.
3. Look at **Empty pan returns**.

Figure 1: Admin empty pan returns

4. Ask Store Manager what happened.

Figure 2: Admin empty pan review

3. What To Ask Store Manager

Ask simple questions:

- How many empty pans are physically in the store?
- Did staff mark a low pan as empty?
- Did any empty pans already leave for lab?
- Did lab accept or dispute the empty pan return?

Remember

- A mismatch is a review flag, not always a mistake.
- A low pan can be treated as empty in the app.
- Use the app report and the physical count together.
